If you ally dependence such a referred Humanistic Historiography Under The Sforzas Politics And Propaganda In Fifteenth century Milan books that will have the funds for you worth, get the no question best seller from us currently from several preferred authors. If you desire to entertaining books, lots of novels, tale, jokes, and more fictions collections are with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every book collections Humanistic Historiography Under The Sforzas Politics And Propaganda In Fifteenth century Milan that we will agreed offer. It is not regarding the costs. Its more or less what you need currently. This Humanistic Historiography Under The Sforzas Politics And Propaganda In Fifteenth century Milan, as one of the most working sellers here will categorically be in the course of the best options to review.

Renaissance Thought  Robert Black 2001 This is a fascinating collection of essays focusing on humanism and thought and other key aspects of Renaissance culture such as philology, political thought and scholastic and platonic philosophy. An essential read for all students of this era.

The Oxford Handbook of Neo-Latin  Sarah Knight 2015-06-01 From the dawn of the early modern period around 1480 until the eighteenth century, Latin was still the European language and its influence extended as far as Asia and the Americas. At the same time, the production of Latin writing exploded thanks to book printing and new literary and cultural dynamics. Latin also entered into a complex interplay with the rising vernacular languages. This Handbook gives an accessible survey of the main genres, contexts, and regions of Neo-Latin, as we have come to call Latin writing composed in the wake of Petrarch (1304-74). Its emphasis is on the period of Neo-Latin’s greatest cultural relevance, from the fifteenth to the eighteenth centuries. Its chapters, written by specialists in the field, present individual methodologies and focuses while retaining an introductory character. The Handbook will be valuable to all readers wanting to orientate themselves in the immense ocean of Neo-Latin literature and culture. It will be particularly helpful for those working on early modern languages and literatures as well as to classicists working on the culture of ancient Rome, its early modern reception and the shifting characteristics of post-classical Latin language and literature. Political, social, cultural and intellectual historians will find much relevant material in the Handbook, and it will provide a rich range of material to scholars researching the history of their respective geographical areas of interest.

Portraying the Prince in the Renaissance  Patrick Baker 2016-06-20 The portrayal of princes plays a central role in the historical literature of the European Renaissance. The sixteen contributions collected in this volume examine such portrayals in a broad variety of historiographical, biographical, and poetic texts. It emerges clearly that historical portrayals were not essentially bound by generic constraints but instead took the form of res gestae or historiae, discrete or collective biographies, panegyric, mirrors for princes, epic poetry, orations, even commonplace books – whatever the occasion called for. Beyond questions of genre, the chapters focus on narrative strategies and the transformation of ancient, medieval, and contemporary authors, as well as on the influence of political, cultural, intellectual, and social contexts. Four broad thematic foci inform the structure of this book: the virtues ascribed to the prince, the cultural and political pretensions inscribed in literary portraits, the historical and literary models on which those portraits were based, and the method that underlay them. The volume is rounded out by a critical summary that considers the portrayal of princes in humanist historiography from the point of view of transformation theory.

Political Thought and the Tudor Commonwealth  Paul Fideler 2003-09-02 Shining new light onto an historically pivotal time, this book re-examines the Tudor commonwealth from a socio-political perspective and looks at its links to its own past. Each essay in this collection addresses a different aspect of the intellectual and cultural climate of the time, going beyond the politics of state institutions and traditions that shaped Tudor policy. Placing security and economics at the centre of debate, the key issues are considered in the context of medieval precedence and the wider European picture.

Chronicling History  Sharon Dale 2007-01-01 Literally thousands of annals, chronicles, and histories were produced in Italy during the Middle Ages, ranging from fragments to polished humanist treatises. This book is composed of a set of case studies exploring the kinds of historical writing most characteristic of the period. We might expect a typical medieval chronicler to be a monk or cleric, but the chroniclers of communal and Renaissance Italy were overwhelmingly secular. Many were jurists or notaries whose professions granted them access to political institutions and public debate. The mix of the anecdotal and the cosmic, of portents and politics, makes these writers engaging to read. While chroniclers may have had different reasons to write and often very different points of view, they shared the belief that knowing the past might explain the present. Moreover, their audiences usually shared the worldview and civic identity of the historians, so these texts are glimpses into deeper cultural and intellectual contexts. Seen more broadly, chronicles are far more entertaining and informative than narratives. They become part of the very history they are describing.

The Duke and the Stars  Monica Azzolini 2013-02-11 The Duke and the Stars explores science and medicine as studied and practiced in fifteenth-century Italy, including how astrology was taught in relation to astronomy. It illustrates how the “predictive art” of astrology was often a critical, secretive source of information for Italian Renaissance rulers, particularly in times of crisis.

Historiography: Oxford Bibliographies Online Research Guide  Oxford University Press 2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about
which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related. This ebook is a static version of an article from Oxford Bibliographies Online: Renaissance and Reformation, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.oxfordbibliographies.com.

The Humanist World of Renaissance Florence Brian Maxson 2014 The Humanist World of Renaissance Florence offers the first synthetic interpretation of the humanist movement in Renaissance Florence in more than fifty years.

Walter Ralegh’s “History of the World” and the Historical Culture of the Late Renaissance Nicholas Popper 2012-10-30 Imprisoned in the Tower of London after the death in 1618 of his patron, Sir Walter Ralegh spent seven years producing his massive History of the World. Created with the aid of a library of more than five hundred books that he was allowed to keep in his quarters, this incredible work of English vernacular would become a best seller, with nearly twenty editions, abridgments, and continuations issued in the years that followed. Nicholas Popper uses Ralegh’s History as a touchstone in this lively exploration of the culture of history writing and historical thinking in the late Renaissance. From Popper we learn why early modern Europeans ascribed heightened value to the study of the past and how scholars and statesmen began to see historical expertise as not just a foundation for political practice and theory, but as a means of advancing their careers in the courts and councils of contemporary Europe. The rise of historical scholarship during this period encouraged the circulation of its methods to other disciplines, transforming Europe’s intellectual—and political—regimes. More than a mere study of Ralegh’s History of the World, Popper’s book reveals how the methods that historians devised to illuminate the past structured the dynamics of early modernity in Europe and England.

The Information Master Jacob Soll 2011-08-08 A fascinating inquiry into Jean-Baptiste Colbert's collection of knowledge

Between Utopia and Dystopia Hanan Yoran 2018-04-19 Between Utopia and Dystopia offers a new interpretation of Erasmian humanism. It argues that Erasmian humanism created the identity of the universal and critical intellectual, but that this identity undermined the fundamental premises of humanist discourse. It closely reads several works of Erasmus and Thomas More, employing an interdisciplinary approach to the study of intellectual history, and adopting theoretical insights and methodological procedures from various disciplines.

Humankind and Divinity in Renaissance and Reformations 2022-03-28 This volume contains studies by eleven distinguished scholars concerning changes in ethical and religious consciousness during this important era of Western culture – themes consonant with the scholarship of Charles Trinkaurs. The personages treated range chronologically from Petrarch to Calvin.

Humanistic Historiography Under the Sforzas Gary Ianziti 1988 Seeking to establish the city of Milan as a major center of Renaissance Italian humanism, this book explores the methods, concerns, and attitudes that influenced the humanist approach to the writing of history there. Ianziti focuses on the two works about Francesco Sforza written by his chancery employees, Crivelli and Simonetta, and considers the radical and innovative features of their work that evolved in response to a political situation. This unique focus provides not only a convincing argument for the evolution of humanist methods of historical writing in the latter half of the 15th century, but also a fresh look at the relationship between politics and culture in the Renaissance.

The Oxford History of Historical Writing Andrew Feldherr 2011 Offers essays by leading scholars on the writing of history globally during the early modern era, from c.1400 to c.1800.

The Pontificate of Clement VII Sheryl E. Reiss 2017-03-02 The pontificate of Clement VII (Giulio de' Medici) is usually regarded as amongst the most disastrous in history, and the pontiff characterized as timid, vacillating, and avaricious. It was during his years as pope (1523-34) that England broke away from the Catholic Church, and relations with the Holy Roman Emperor deteriorated to such a degree that in 1527 an Imperial army sacked Rome and imprisoned the pontiff. Given these spectacular political and military failures, it is perhaps unsurprising that Clement has often elicited the scorn of historians, rather than balanced and dispassionate analysis. This long-awaited, first ever book length treatment of Clement, constitutes a major step forward in our understanding of Clement VII’s pontificate. Looking beyond Clement’s well-known failures, and anachronistic comparisons with more ‘successful’ popes, it provides a fascinating insight into one of the most pivotal periods of papal and European history. Drawing on long-neglected sources, as rich as they are abundant, the contributors address a wide variety of important aspects of Clement’s pontificate, re-assessing his character, familial and personal relations, political strategies, and cultural patronage, as well as exploring broader issues including the impact of the sack of Rome, and religious renewal and reform in the pre-Tridentine period. Taken together, the essays collected here provide the most expansive and nuanced portrayal yet offered of Clement as pope, patron, and politician. In reconsidering the politics and emphasizing the cultural vitality of the period, the collection provides fresh and much-needed revision to our understanding of Clement VII’s pontificate and its critical impact on the history of the papacy and Renaissance Europe.

Social Mobility in Medieval Italy (1100-1500) AA. VV. 2021-07-27T12:14:00+02:00 This volume aims to investigate the complex theme of social mobility in medieval Italy both by comparing Italian research to contemporary international studies in various European contexts, and by analysing a broad range of themes and specific case studies. Medieval social mobility as a European phenomenon, in fact, still awaits a systematic analysis, and has seldom been investigated in its own proper principia in social, political and economic history. The essays in the book deal with a number of crucial problems: how is social mobility investigated in European and Mediterranean contexts? How did classic mobility channels such as the Church, officialdom, trade, the law, the lordship or diplomacy contribute to shaping the many variables at play in late medieval societies, and to changing – and challenging – inequality? How did movements and changes in social spaces become visible, and what were their markers? What were the dynamics at the heart of the processes of social mobility in the many territorial contexts of the Italian peninsula.

Florentine Political Writings from Petrarch to Machiavelli Mark Jurdjevic 2010-05-01 In the fifteenth-century republic of Florence, political power resided in the hands of middle-class merchants, a few wealthy families, and powerful craftsmen's guilds. The intensity of Florentine factionalism and the frequent alterations in its political institutions gave Renaissance thinkers ample opportunities to inquire into the nature of political legitimacy and the relationship between authority and its social context. This volume provides a selection of texts that describes the language, conceptual vocabulary, and issues at stake in Florentine political culture at key moments in its development during the Renaissance. Rather than presenting Renaissance political thought as a static set of arguments, Florentine Political Writings from Petrarch to Machiavelli instead illustrates the degree to which political thought in the Italian City revolved around a common cluster of topics that were continually modified and revised—and the way those common topics could be made to serve radically divergent political purposes. Editors Mark Jurdjevic, Natasha Piano, and John P. McCormick offer readers the opportunity to appreciate how Renaissance political thought, when examined through the language of classical rhetoric, was variously applied to pressing civic questions. The editors expand the scope of Florentine humanist political writing by explicitly connecting it with the sixteenth-century realist turn most influentially exemplified by Niccolò Machiavelli and Francesco Guicciardini. Presenting nineteen primary source documents, including lesser known texts by Machiavelli and Guicciardini, several of which are here translated into English for the first time, this useful compendium shows how the Renaissance political imagination could be deployed to think through methods of electoral technology, the balance of power between different social groups, and other practical matters of political stability.

Spain in Italy Thomas James Dandelet 2007 This volume integrates the theme of Spain in Italy into a broad synthesis of late Renaissance and early modern Italy by restoring the contingency of events, local and imperial decision-making, and the distinct voices of individual Spaniards and Italians.

Secretaries and Statecraft in the Early Modern World Dover Paul M. Dover 2016-06-14 One of the prominent themes of the political history of the 16th and 17th centuries is the waxing influence officials in the exercise of state power, particularly in international relations, as it became impossible for monarchs to stay on top of the increasingly complex demands of ruling. Encompassing a variety of cultural and institutional settings, these essays examine how state secretaries, their colleagues, and their colleagues were promiscuously deployed by the sovereigns they served. They explore how these officials balanced domestic matters with external concerns, and service to the monarch and state with personal ambition. By opening various perspectives on policy-making at the level just below the monarch, this volume offers up rich opportunities for comparative history and a new take on the diplomatic history of the period.

The Oxford History of Historical Writing José Rabasa 2012-03-29 Volume III of The Oxford History of Historical Writing contains essays by leading scholars on the writing of history globally during the early modern era, from 1400 to 1800. The volume proceeds in geographic order from east to west, beginning in Asia and ending in the Americas. It aims at once to provide a selective but authoritative survey of the field and, where opportunity allows, to provoke cross-cultural comparisons. This is the third of five volumes in a series that explores representations of the past from the beginning of writing to the present day, and from all over the world.

Politicians and Pamphleteers Jason Peacey 2017-03-02 The English civil wars radically altered many aspects of mid-seventeenth century life, simultaneously creating a period of intense uncertainty and unheralded opportunity. Nowhere was this more apparent than in the printing and publishing industry, which between 1640 and 1660 produced a vast number of tracts and pamphlets on a bewildering variety of subjects. Many of these were of a highly political nature, the political and cultural climate having been unhinged just a few years before. Whilst scholars have long recognised the importance of these publications, and have studied in depth what was written in them, much less work has been done on why they were produced. In this book Dr Peacey first highlights the different dynamics at work in the conception, publication and distribution of polemical works, and then pulls the strands together to study them against the wider political context. In so doing he provides a more complete understanding of the relationship between political events and literary and intellectual prose in an era of unrest and upheaval. By incorporating into the political history of the period some of the approaches utilized by scholars of book history, this study reveals the heightened intensity and often subjective nature of political propaganda, both within the political nation and the minds of the political elite in the civil wars and Interregnum. Furthermore, it demonstrates both the existence and prevalence of print propaganda with which politicians became associated, and traces the processes by which it came to be produced, the means of detecting its existence, the ways in which politicians involved themselves in its production, the uses to which it was put, and the relationships between politicians and pamphleteers.

Empires of Islam in Renaissance Historical Thought Margaret MESERVE 2009-06-30 Drawing on political oratory, diplomatic correspondence, crusade propaganda, and historical treatises, Meserve shows how research into the origins of Islamic empires sprang from—and contributed to—contemporary debates over the threat of Islamic expansion in the Meditarranean. This groundbreaking book offers new insights into Renaissance humanist scholarship and long-standing European debates over the relationship between Christianity and Islam.

Renaissance Politics and Culture Jonathan Davies 2021-08-16 Ten essays by eminent scholars in Renaissance studies to celebrate the work of Robert Black. These essays analyze education, humanism, political thought, printing, and the visual arts during this key period in their development.

Italy in the Age of the Renaissance John M. Najemy 2008-11-11 "The twelve essays in this volume present an introduction to Italian Renaissance society, its intellectual history, and politics" -- provided by publisher.

A Short History of the Renaissance in Europe Margaret L. King 2016-09-22 Originally published in 2003 under the title: The Renaissance in Europe.

A Companion to Late Medieval and Early Modern Milan 2014-11-27 20 Chapters by qualified and distinguished scholars offer a new and original view of the State of Milan from the mid 14th to the late 17th century, with themes ranging from society to politics, music to literature, the history of art to law, the church to the economy.
Milan Undone

John Gagné 2021-01-01 A new history of how one of the Renaissance’s preeminent cities lost its independence in the Italian Wars. In 1499, the duchy of Milan had known independence for one hundred years. But the turn of the sixteenth century saw the city battling for supremacy by the major powers of Europe—France and dukes of Burgundy, the Medici, the Sforza, the Venetians, and their politics and culture of later medieval Europe and Renaissance Italy: the kings of France and dukes of Burgundy, the Medici, the Sforza, the Venetians, and their armies, ambassadors, and adversaries all appear here; so do Giovanni Bellini, Andrea Mantegna, Guarino of Verona, and their respective intellectual and artistic circles. Emerging from it is a challenge to conventional interpretations of the armies, ambassadors, and adversaries all appear here; so do Giovanni Bellini, Andrea Mantegna, Guarino of Verona, and their respective intellectual and artistic circles. Emerging from it is a challenge to conventional interpretations of the armies, ambassadors, and adversaries all appear here; so do Giovanni Bellini, Andrea Mantegna, Guarino of Verona, and their respective intellectual and artistic circles. a country, rather than as a nation, in order to trace its fascinating cultural and political development. Offering a way into each period of Italian history, the book brings Italy's past to life with extracts from poetry, novels and music. Drawing on the latest research published in English and Italian, this is the ideal introduction for all those interested in Italy's cultural and social past and its significance for the country's present.

Machiavelli's Florentine Republic Michelle T. Clarke 2018-03-08 What do modern republics have to fear? Machiavelli's Florentine Republic reconstructs Machiavelli's answer to this question from the perspective of the Florentine Histories, his most probing meditation on the fate of republican politics in the modern age. It argues that his principle goal in narrating the defeat of Florentine republicanism is to debunk the views of leading humanists concerning the overall health of republican politics in modernity and the distinctive challenges that modern republics should expect to face. The Medici family had exposed these vulnerabilities better than anyone else, and Machiavelli reconstructs their political strategy to show how conventional ideas of moral and political virtue are the most potent instruments of princely ambition in a city that wants to be free.

Early Music History: Volume 12 Iain Fenlon 1994-02-24 Includes contributions on European knowledge of Arabic texts referring to music and the motets of Philippe de Vitry and the fourteenth-century renaissance

Shadows of Doubt Stefania Tutino 2014 Stefania Tutino shows that post-Reformation Catholic culture was a rich laboratory for our current moral and hermeneutical anxieties.

Conspiracy Literature in Early Renaissance Italy Marta Celati 2020-12-17 This volume examines the topic and treatment of conspiracy in fifteenth-century Italian literature. It situates the theme of conspiracy within the literary and historical contexts of the period, examines its representation within four key texts, and reflects on the legacy of these literary-historical works over the following century.
